Objective

Proficient in web design and development, adept at creating visually appealing and user-friendly websites using HTML, CSS, JavaScript, Next.js, Node.js, React.js, and PHP. Skilled in responsive design, ensuring seamless functionality across multiple devices. Experienced with MySQL databases and proficient in frameworks like Bootstrap, as well as CMS platforms such as WordPress. Seeking opportunities in a collaborative environment to leverage my skills and enthusiasm, contribute to meaningful projects, and continue professional growth.

Developer

Canada (Remote)

2024 Now – 2024 May

Project: Library Web application

Developed and maintained the front-end of the library web application using JavaScript, Next.js, Components, MongoDB, HTML, and CSS.

Conducted code reviews to enhance code quality and ensure adherence to coding standards.
